

CONVENIENT
CARE ANYWHERE™

1.800MD™

America's Most **Reliable**
Telemedicine Network™

Behavioral Healthcare Made Easy

1.800MD PROVIDES MEMBERS AND THEIR FAMILIES ACCESS TO BOARD-CERTIFIED BEHAVIORAL HEALTHCARE PROVIDERS

Research has shown that taking care of your body emotionally, physically, and mentally directly correlates to overall happiness and life span. **1.800MD's Behavioral Health program** help members live to their best potential by providing industry-leading behavioral health services. Best of all, the first **two** sessions are at no cost to the member. Our mobile behavioral clinicians can provide assessment, diagnosis, consultation, and brief psychotherapy to address a vast array of behavioral health needs from a computer and other smart devices (e.g. smartphone, tablet).

1.800MD's network of providers encompasses experienced clinicians specialized in behavioral health training for a multitude of common conditions such as:

- **Depression**
- **Anxiety**
- **Work-related stress**
- **Alcohol or Drug problems**
- **Grief and loss**
- **Eating Disorders**
- **Education**
- **Stress Management**
- **Marriage or relationship problems**
- **Eldercare, childcare, and parenting issues**
- **And much more**

BEHAVIORAL HEALTHCARE

The first 2 sessions are at no cost to the member!

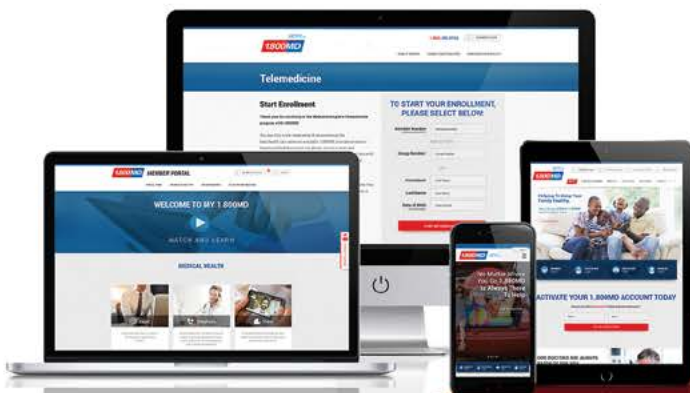

After the first **two** sessions, an evaluation is completed to identify the member's needs and if necessary, develop an ongoing treatment plan. The treatment plan includes matching the member with a certified counselor that has experience treating the presenting issue. This counselor can work with the member for as long as it takes to address the behavioral concerns.

BENEFITS:

- **QUALITY CARE:** Through assessment of their specific needs, the member will be connected with an experienced clinician who is highly suited to fit their needs.
- **CONTINUITY OF CARE:** Real-time access to their Behavioral Health assessments and recurring treatment by the same clinician each time.
- **SECURITY and PRIVACY:** Engage in Behavioral Health treatment services via our secure member portal from the comfort and privacy of the member's own home or other locations via Smart Phone and other connected devices.

Psychologists, Counselors and Psychiatrists are available depending upon your specific needs.

A medical diagnosis or issuance of prescription medication is not guaranteed and is at the sole discretion of the consulting psychiatrists and state law.
